The never-
ending pursuit
of mastery

Introduces the exclusive True Linen B9 Finish for supreme handling and the ultimate flourish.

Inspired by you. Developed in the pursuit of mastery. Made for players, cardists and magicians.

Since the first decks printed with the TRUE LINEN B9 FINISH ran off our production line, cardists, magicians and collectors have been telling us that our cards are just slightly too thick.

At Cartamundi, quality is the core value, and we believe that acting upon community feedback is key to taking our products to the next level. This is also why we've been doing further R&D for the past year to create an improved paper stock that meets community expectations. The result is our proprietary SlimLine stock. While this new stock is significantly thinner (5-6 card to be more exact), we've made sure not to compromise the snappy feel and soft touch that distinguished the formerly used stock.

With the release of this new stock across standard and custom decks, we believe we've come one step closer in our neverending pursuit of mastery.
